DIVISION OF CONTINUING EDUCATION

The strength of Colorado State University OnlinePlus is backed by more than 40 years of experience. Each year close to 7,000 students – in Colorado and throughout the world – connect with our renowned faculty, research, and academic programs.

Our flexible, convenient courses and programs give students and working professionals access to CSU’s academic excellence. Through online and distance education, plus Learning Centers along the Front Range, we provide academic degrees, certificates, and professional development to our community.

Colorado State University OnlinePlus can help you reach your educational goals with:

- Accredited undergraduate degree completion programs
- Accredited graduate degrees
- Demand-driven professional development training and certificate programs
- Courses taught online, at a distance, and in classrooms throughout the Front Range
- Flexible programs that allow you to choose the most convenient time and place to study
- Relevant and engaging noncredit personal enrichment courses
- Osher Lifelong Learning Institute for those aged 50 and better

Degrees earned through Colorado State University OnlinePlus use the same faculty and content as on-campus programs. No distinction for course delivery method is made on transcripts or diplomas.

Agriculture, Food, and Animal Sciences

Education in agriculture, animal, and food science leads to a wide of range of professional options, including private practice, management, and research for stewardship of land and agricultural resources. CSU, one of the nation's leaders in agricultural education, offers programs that address agricultural and resource economics, agricultural education, land management, animal sciences, seed technology, and dietetics.

Committed

Colorado State University is a land-grant institution and a Carnegie Doctoral/Research University-Extensive.

DEGREES

Agricultural Business – Bachelor of Science *(degree completion)*

Use economic theory as a framework to understand agricultural issues, devise solutions to economic and environmental problems, and predict the likely effects of government policies and regulations. **[Online]**

Agricultural Extension Education – Master of Agriculture in Agricultural Sciences

Learn skills and principles to become an effective educator in areas such as agriculture and natural resources, community development, environmental education, human development, natural resources, and range science. **[Online/Distance]**

Food Science and Nutrition, Dietetics Option – Master of Science

Learn to design and lead effective food and nutrition programs from expert faculty at eight institutions in this inter-institutional graduate program offered through the Great Plains Interactive Distance Education Alliance. **[Online]**

Integrated Resource Management – Master of Agriculture

Prepare to manage land, animal, and human resources to ensure long-term profitability and sustainability of farms, ranches, and rural communities. **[Online]**

CERTIFICATE

Seed Technology Education – Undergraduate Certificate

Gain comprehensive training in seed analysis and prepare for certification exams required to work in private and commercial seed laboratories. **[Online/Distance]**

Art, Design, and Music

Expand your knowledge in fields ranging from interior design to music therapy with our courses, certificates, and degree programs. Online and distance learning allow you to earn a graduate degree in music therapy or an undergraduate certificate in residential interiors while maintaining your personal and professional commitments.

DEGREE

Music Therapy – Master of Music

Expand your skills and knowledge to use music within a therapeutic relationship to address individuals' physical, psychological, cognitive, and social needs. **[Online/Distance with Classroom Instruction]**

CERTIFICATE

Residential Interiors – Undergraduate Certificate

Learn principles of residential interiors and design to evaluate residential design, floor plans, furniture arrangements, circulation patterns, use of color, and lighting design. **[Online]**

Accommodating

Colorado State University OnlinePlus students receive many of the benefits that on-campus students do, such as a free email address and library access. The University library's collection of e-journals, e-books, databases, and other electronic materials expands daily and can be quickly delivered to students electronically.

Business, Leadership, and Management

Having up-to-date knowledge is critical to successfully meet challenges and improve performance in the business world. Training and education that build leadership capabilities and enhance employee performance are key success factors for aspiring managers, business owners, and executives. Our graduate programs, certificates, and professional development classes and workshops will help you maintain your competitive edge.

DEGREES

Computer Information Systems – Master of Science in Business Administration

Learn cutting-edge information technology, project management, and business systems to help meet the demands of this fast-paced and challenging industry. **[Online/Distance]**

Executive MBA – Master of Business Administration

Emerging business leaders with substantive experience learn to develop practical, innovative solutions and business strategies that can be applied immediately. **[Classroom Instruction]**

MBA – Master of Business Administration

Develop and sharpen your professional and management skills with courses emphasizing entrepreneurship, leadership, and global business practices. **[Online/Distance]**

Merchandising – Master of Science

Learn fundamental concepts of merchandising in this inter-institutional graduate program offered through the Great Plains Interactive Distance Education Alliance. **[Online]**

CERTIFICATES

Core Business Competencies – Undergraduate Certificate

Build your skills in accounting, finance, legal and ethical issues, management, and marketing. **[Online]**

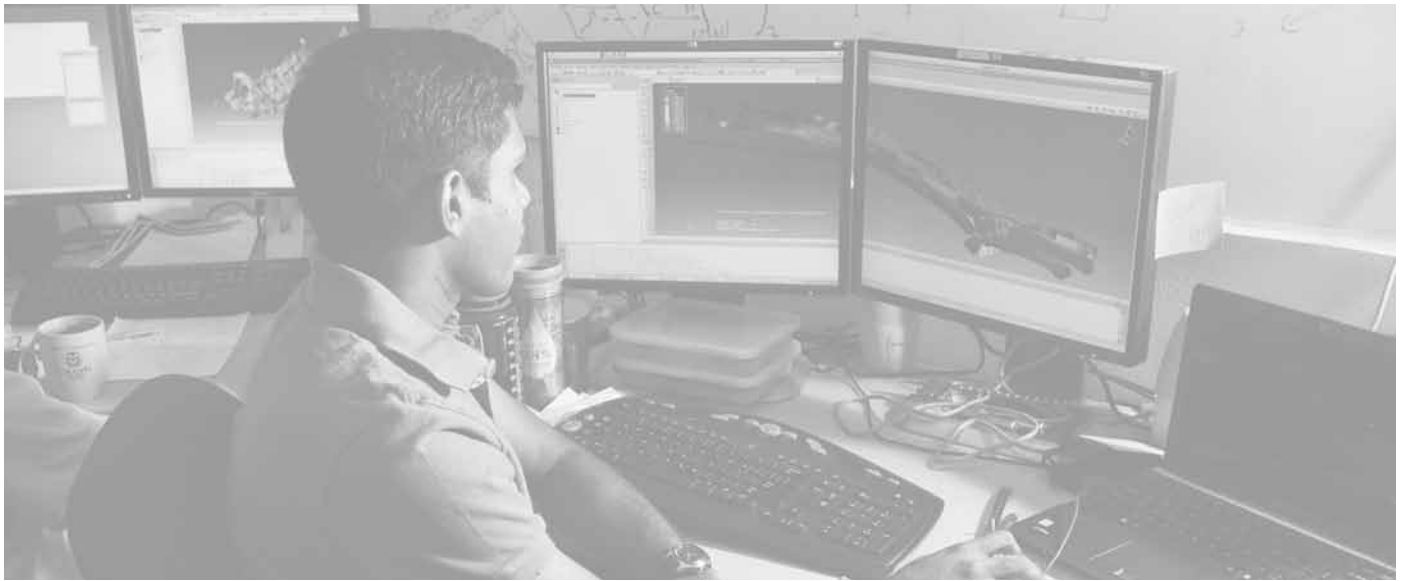

Finance – Graduate Certificate

Study corporate finance, international finance, and financial institutions and credit markets. **[Online/Distance]**

Project Management – Professional Development Certificate

Learn critical tools and techniques to work in a dynamic project management environment and run projects on time and under budget with standard, worldwide recognized processes. **[Classroom Instruction]**

Computer Science and Technology

Computers transformed our lives, the Internet revolutionized how we work and communicate, and the implementation of new computing methods and technologies are a constant force of change in the professional arena. No matter what field you are in, up-to-date technology skills are essential to increase your productivity and effectiveness.

Credible

Transcripts, records and diplomas for Colorado State University OnlinePlus students are identical to those for on-campus students. No indication of course delivery method or location is made, so your degree comes with Colorado State's esteemed reputation.

DEGREE

Computer Science – Master of Computer Science

Study the development and implementation of the physical and theoretical design and understanding of computer systems. **[Online]**

CERTIFICATES

Computer Systems and Security – Graduate Certificate

Advance your ability to design and build robust and secure networked computer systems. **[Online]**

Software Engineering – Graduate Certificate

Learn how to engineer high quality, reliable software from conceptualization through development, testing, and deployment. **[Online]**

NONCREDIT PROGRAMS WITH OUTREACH EDUCATION PARTNERS

Video Game Design and Development

Learn how to effectively implement game concepts using a comprehensive and analytical approach to game engine architectures and design. **[Online]**

Webmaster Certificate

Prepare to design, develop, and maintain websites with training that takes you from simple webpage development to active webpage implementation. **[Online]**

Construction Management and Green Building

Gain the skills and knowledge needed to excel professionally in the construction industry. Maintain your competitive edge in the field of sustainable and green building. Our professional development courses and certificates meet the growing educational need for professionals in construction and green building, covering topics such as materials, methods, economics, and high-performance systems.

Convenient

Admission to the University is not required to take individual courses, nor to complete most noncredit, undergraduate, and graduate certificates.

CERTIFICATES

Advanced Estimating – Professional Development Certificate

Become a better construction manager by gaining an in-depth understanding of advanced estimating for commercial and residential building.

[Classroom Instruction]

Construction Management – Professional Development Certificate

Prepare to be an effective construction manager with the skills and knowledge to coordinate and supervise the process from conceptual development through final construction. **[Classroom Instruction]**

Green Building – Professional Development Certificate

Learn to build healthier, smarter commercial and residential buildings with tools like the LEED Green Building Rating System™ and efficient energy and water use.

[Online]

Quality education systems and educators are needed now more than ever. Make a difference in the lives of those you teach, and impact society as a whole, with a career in education. Stay current on the research and knowledge about education, and related issues such as human development and cognition, with our degree and certificate programs.

DEGREES

Adult Education and Training –

Master of Education in Education and Human Resource Studies

Gain skills to administer and deliver a wide range of adult training and educational programs. **[Online/Distance]**

College and University Leadership –

Ph.D. in Education and Human Resource Studies

Develop the expertise to successfully and ethically lead higher education institutions. **[Online/Distance with Classroom Instruction]**

Educational Leadership, Renewal, and Change – Teacher/Principal Licensure and Master of Education in Education and Human Resource Studies

Prepare for teaching and leadership positions in education by developing strong pedagogical skills and a deeper understanding of learning theories. Classes held in various locations in northern Colorado.

[Classroom Instruction]

Natural Sciences Education – Master of Natural Sciences Education

Expand your science knowledge, research skills, and instructional competency in teaching science at the middle or high school level. **[Online]**

CERTIFICATES

Advanced Science Instruction – Graduate Certificate

Increase your science knowledge base and teaching competency while gaining valuable credentials that will help you in your teaching career. **[Online]**

Interior Design for High School Teachers – Undergraduate Certificate

Learn methods and strategies for teaching interior design at the high school level. **[Online]**

Literacy Instruction Authorization – Graduate Certificate

This series offered through CSU's School of Education includes three of the four courses needed to fulfill the Literacy Instruction Authorization (issued by the Colorado Department of Education). **[Online]**

Postsecondary Teaching – Graduate Certificate

Enhance your ability to engage students, meet learning goals, and promote critical thinking. **[Online/Distance]**

Student Affairs in Higher Education – Graduate Certificate

Build your skills to assist college students realize their learning and development potential. **[Online]**

Teaching with Technology and Distance Learning – Graduate Certificate

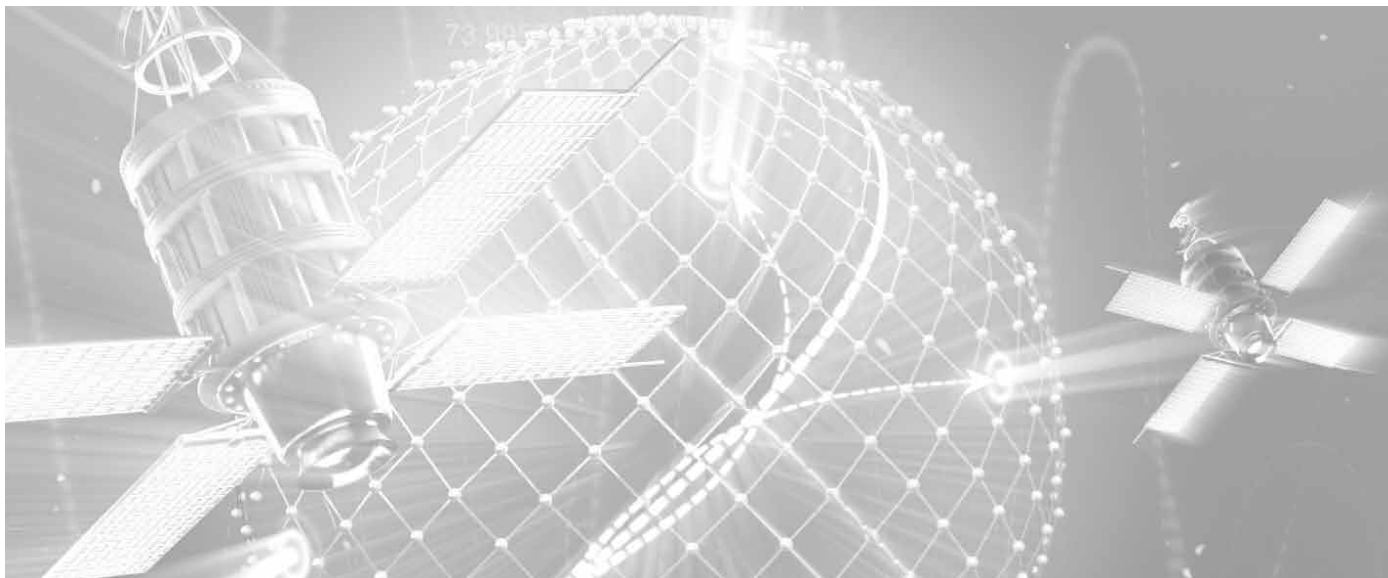

Learn how to select, evaluate, and apply technology to improve teaching and learning. **[Online]**

PROFESSIONAL DEVELOPMENT PROGRAM

Annenberg Workshops for Educators

Increase your expertise, improve teaching methods, and strengthen your credentials with unparalleled, authoritative professional development.

[Online/Distance]

An advanced degree or certificate in engineering leads to career opportunities in research, development, design, manufacturing, and operation of products and services. Engineers are in demand in almost every sector of the economy, but in this ever-changing field, it is critical to keep pace with technology and systems changes. Increase your engineering skills with CSU, one of the nation's leading universities in engineering research and education.

DEGREES

Biomedical Engineering – Master of Engineering

Learn about cutting-edge technologies from leading biomedical researchers. **[Online]**

Civil Engineering – Master of Engineering

Enhance your skills in water resource engineering, planning, and management; engineering infrastructure; and systems analysis and optimization. **[Online]**

Engineering Management – Master of Engineering in Mechanical Engineering

Prepare for leadership roles in engineering fields with advanced training in communications, management, policy, and business. **[Online/Distance]**

Industrial Engineering and Operations Research – Master of Engineering in Mechanical Engineering

Learn mathematical and statistical modeling, computational issues in problem-solving, and decision-making to prepare for teaching and research careers. **[Online/Distance]**

Materials Engineering – Master of Engineering in Mechanical Engineering

Further your career with advanced training and education in materials engineering. **[Online/Distance]**

Systems Engineering – Master of Engineering

Learn an innovative and unique curriculum to meet the growing industry demand for trained systems engineers. **[Online]**

CERTIFICATES

Regulatory Affairs – Professional Development Certificate

Gain a comprehensive understanding of the central elements of regulatory affairs as applicable to the medical devices and pharmaceutical industries. **[Online]** or **[Classroom Instruction]**

Systems Engineering – Graduate Certificate

Learn core concepts in systems engineering, including risk analysis, project management, support systems, and engineering processes. **[Online]**

Fire and Emergency Services

The shift work inherent in fire and emergency services provision can make classroom attendance difficult. Our distance degree completion and certificate program allow you to advance your career at a time and place convenient for you. Gain the skills necessary to effectively lead and administer emergency service efforts.

Accredited

Colorado State University is accredited by The Higher Learning Commission (HLC) and is a member of the North Central Association of Schools and Colleges (NCASC). All academic programs offered by Colorado State University OnlinePlus are Colorado State University programs and have the same accreditation.

DEGREE COMPLETION

Fire and Emergency Services Administration – Bachelor of Science

Gain the skills and knowledge needed to assume administrative, management, and leadership positions in a wide variety of fire protection, prevention, emergency medical, and emergency preparedness services.

[Online/Distance]

CERTIFICATE

Fire and Emergency Services Administration – Undergraduate Certificate

Learn the critical concepts and evolving requirements of emergency services to be an effective leader, manager, or administrator. **[Online/Distance]**

A liberal arts education prepares you for a lifetime of learning and achieving by honing the critical skills needed for communication, problem-solving, and analytical thinking. The Liberal Arts undergraduate degree curriculum includes a variety of subject areas such as political science, economics, media studies, and anthropology.

DEGREE COMPLETION

Liberal Arts – Bachelor of Arts

Learn effective writing, verbal communication, problem-solving, and analytical skills while exploring a variety of subjects that can be customized to meet your needs and goals. Through interdisciplinary studies in communication and public affairs, and additional emphases in political science and economics, gain the knowledge and skills needed to succeed in the workplace. Degree minors are available in anthropology, economics, media studies and political science.

[Online]

Accessible

Students can take courses before being officially admitted to a degree program – an opportunity to make sure the program fits your needs before you fully commit. Check with an adviser to see how many credits can be taken prior to admission.

Organizational Development and Human Resources

Meet the demands of today's workplace with unique offerings in organizational development, performance management, ergonomics, and human resources. Our degrees and certificate programs are practitioner-oriented, and designed to give you knowledge that can be applied immediately to your professional life.

DEGREES

Industrial/Organizational Psychology – Master of Applied Industrial/Organizational Psychology

Learn to enhance performance and productivity for businesses and organizations by studying and improving employee behavior, motivation, and morale. **[Online]**

Organizational Performance and Change – Master of Education in Education and Human Resource Studies

Develop skills and principles of organizational management and change that build upon existing knowledge and work experience while networking with fellow working professionals. **[Classroom Instruction]**

Organizational Performance and Change – Doctor of Philosophy (Ph.D.) in Education and Human Resource Studies

Learn skills and competencies to improve organizational performance and effectiveness, enhance decision-making skills, and acquire advanced analysis and research expertise. **[Classroom Instruction]**

CERTIFICATES

Occupational Ergonomics – Professional Development Certificate

Study how to anticipate, recognize, evaluate, and control ergonomic risk. **[Online]**

Organizational Development – Graduate Certificate

Learn to facilitate organizational change and organizational effectiveness through enhanced psychological practices. **[Online]**

Performance Management – Graduate Certificate

Gain skills in systems and competency modeling that help manage personnel performance. **[Online]**

Psychological Measurement & Methodologies – Graduate Certificate

Learn to measure psychological attributes, by analyzing organizational intervention data. **[Online]**

Society of Human Resource Management (SHRM) Learning System – Professional Development Certificate

Prepare for the PHR/SPHR certification exams via the SHRM Learning System. **[Classroom Instruction]**

Osher Lifelong Learning Institute

The Osher Lifelong Learning Institute at Colorado State University is a unique learning community for adults aged 50 and better. Osher offers the very best in continuing education with no prerequisites, no tests, no stress, and no degree requirements. Designed to challenge and inform, courses are small, engaging, interactive, and very affordable.

“The two Osher Lifelong Learning Institute classes I finished may have been very diverse in their content, but both were taught by world-class instructors in a very supportive environment.”

–Steve Allen

Courses change every season – here is a brief selection of past offerings:

Bring Out the Artist in You – The Lure of Watercolor Painting

Why is THAT in an Art Museum?

The Fate of Traditional Media – Impact on Society, Impact on the Individual

Memories Worth Saving, Stories to Tell

Science and Technology Headlines: A Roundtable Discussion

Shaping U.S. Foreign Policy – Putting the Pieces Together

Retirement Income Planning for Pre- and Post- Retirees

Geology Field Trip in Larimer County, Colorado

A Story of Conflicting Purposes – The U.S. Bill of Rights

Cinema “Du Jour” (Movie series)

Science and Technology Headlines: A Roundtable Discussion

Social and Community Services

Prepare for a variety of careers in social and community services with our graduate and undergraduate degree and certificate programs. The demand for training in such fields as social work, mediation, child care, and community mobilization continues to grow, and the skills acquired in our coursework can be applied to a variety of professions.

DEGREES

Human Development and Family Studies – Bachelor of Science *(degree completion)*

Combine course work and experience in individual and family development to increase knowledge and professional skills. **[Online]**

Social Work – Master of Social Work

Gain the skills and abilities to integrate research into practice and prepare to work in countless areas of the social services sector in communities across the nation. **[Classroom Instruction]**

CERTIFICATES

Community-Based Development – Professional Development Certificate

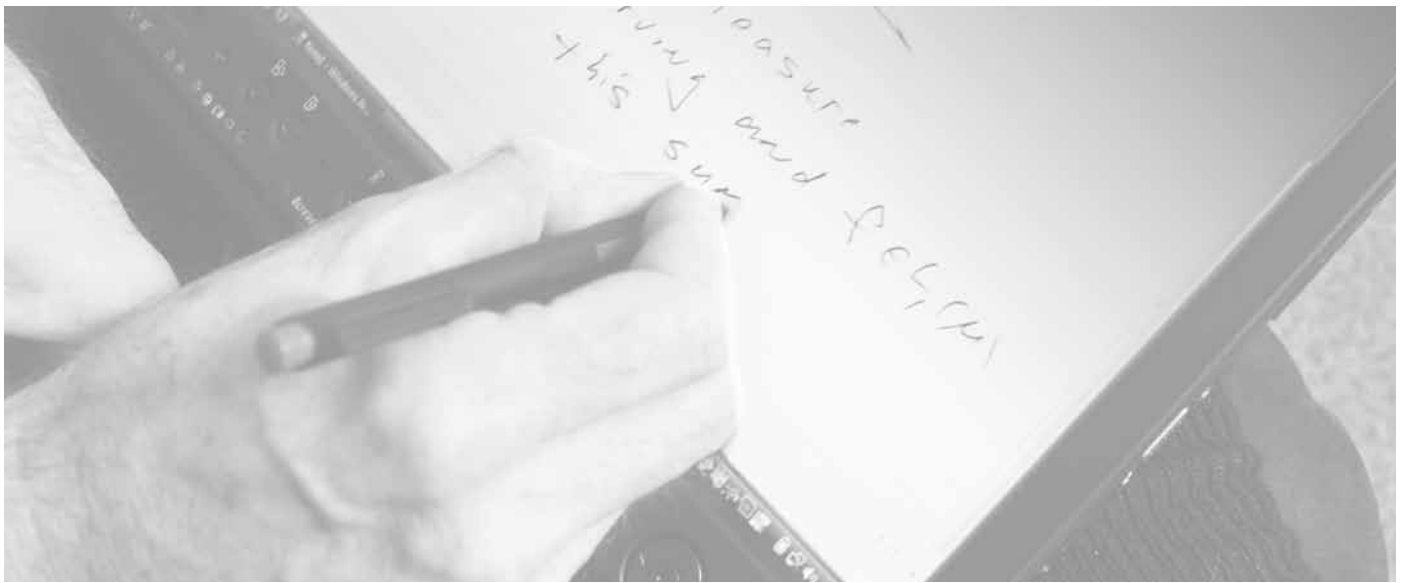

Develop the practical skills and tools to meet today's challenges as a project director, community leader, grassroots activist, funder, or field worker in community-based organizations and governmental and nongovernmental organizations. **[Online]**

Mediation – Graduate Certificate

Develop skills and tools in communication, negotiation, problem-solving, and conflict resolution that can be transferred to a variety of fields. **[Online]** or **[Classroom Instruction]**

Integrity

Colorado State University is one of fewer than 120 institutions named as a Carnegie Community Engagement University.

The methods of probability and statistics play an increasingly pivotal role in all aspects of business and industry. With an education in statistics, you can implement these crucial methods and theories in your workplace. Our online and distance programs cover statistical theory, methods, application, and concepts such as probability, regression analysis, and linear modeling.

DEGREE

Statistics – Master of Science

Learn the science of collection, organization, analysis, and explanation of statistical information with the opportunity to specialize in a subject relevant to your interests and needs. **[Online/Distance]**

CERTIFICATES

Applied Statistics and Data Analysis – Graduate Certificate

Learn basic principles of probability and statistical theory and improve your statistical and data analysis skills using modern software. **[Online/Distance]**

Excellence

Colorado State University is ranked as a Tier II university in the U.S. News and World Report rankings of “America’s Best Colleges and Universities.”

Sustainability and the Environment

Sustainability – a long-term approach to establishing the best ways for people to exist in the natural environment – requires professionals with systems-thinking, and the ability to make relevant connections between the economy, the environment, and social responsibility. Sustainability education builds a trained workforce with the social, scientific, economic, and ecological literacy, creative problemsolving skills, and commitment necessary to protect and sustain our environment.

Expertise

Colorado State University OnlinePlus has more than 40 years of experience in distance education.

DEGREE

Rangeland Ecosystem Science – Master of Science

Gain knowledge and skills related to the structure, function, and management of rangeland ecosystems, including assessment, planning, monitoring, rehabilitation, and maintenance. **[Online/Distance]**

CERTIFICATES

Natural Resources and the Environment – Graduate Certificate

Gain critical insights into the conservation and use of natural resources. **[Distance]**

Sustainable Military Lands Management – Graduate Certificate

Learn the tools for conservation and sustainable management of natural and cultural resources on Department of Defense lands. **[Online]**

Water Resources – Graduate Certificate

Learn critical topics in water resources planning, management, and policy. **[Online]**

Veterinary Medicine and Animal Courses

Colorado State University's College of Veterinary Medicine and Biomedical Sciences (CVMBS), a noted leader in veterinary science and education, offers several course series for veterinarians and veterinary technicians. These course series cover contemporary topics that help veterinary specialists meet their professional development needs to maintain their licenses.

ADVANCED AND SPECIALIST TOPICS

These courses are designed for veterinary residents and specialists in-training, as well as current practitioners seeking advanced, in-depth instruction in a specific discipline. Areas of instruction include:

- Post Graduate Medicine I
- Post Graduate Medicine II
- Post Graduate Medicine III
- Post Graduate Medicine IV
- Physiology and Pathophysiology

GENERALIST TOPICS FOR CONTINUING EDUCATION CREDIT

These courses are designed for licensed and practicing veterinarians seeking Continuing Education (CE) credits in current and specific areas. Areas of instruction include:

- General Courses
- Animal Behavior
- Beyond Clinical Skills
- Poisonous Plants
- Spanish for Veterinarians
- Swine Medicine

PET OWNER EDUCATION

For owners, animal lovers, and anyone interested in learning more about their cat's and dog's behaviors and environment. You do not need any veterinary background to learn and enjoy these courses.

Anytime. Anywhere.
