Bronze Art: The Heart of Loveland

Loveland, Colorado is known as one of the “bronze capitals” of the country. Join us for this one-day class and tour to learn how the emphasis on bronze art evolved in Loveland, Colorado. You will get an overview of the lengthy process of taking an idea and turning it into a finished bronze piece. You will visit sculpture studios to hear how a sculptor’s inspiration and technical skills contribute to his work. A catered picnic lunch will be provided followed by a tour of the Benson Sculpture Garden, home to more than 136 permanent sculptures by renowned artists, where Jack Kreutzer will be your guide.

Guide and Facilitator: Sculptor Jack Kreutzer makes his home in Loveland, Colorado. His work has earned him numerous awards and commissions. Jack Kreutzer discovered art at an early age and he still manages to approach it with boyish eagerness. Kreutzer’s work ranges from the human figure to wildlife - from realistic to a hint of the abstract. His finished textures range from the loose to the refined. His inspirations range from the rhythm of the human body to
those of the clouds. Kreutzer's art and life have a hint of whimsy about them. Jack attended Murray State College in Kentucky before moving to Mexico to study with the German artist Lothar Ceistingbaum. He returned to Colorado where he studied at Colorado State University, earning a Bachelor of Fine Arts degree in 1977. He maintains his studio near his foundry and next door to the Loveland Academy of Fine Arts where he teaches sculpture to a new generation of artists.

### The 2015/16 Supreme Court Term Finale: Chaos on the Bench?

As the nation heads into the 2016 election year, the Supreme Court (with justices already split along ideological lines) is poised to decide a number of politically charged cases. If the Court splits 4-4 on most of these cases, it will reinforce the impression that the current President's/new President's potential appointments to the Court are likely to tip the law significantly to the right or left. Mr. Waples' presentation will review the most significant politically charged cases of the 2015/16 Court Term and the Court's decision in each 5-3 decision, in each case postpone for re-argument, and in each 4-4 case affirming the lower court decision (which would then apply only in that court's respective circuit). Mr. Waples will also discuss how the Scalia vacancy has already dramatically changed the tenor of oral argument, individual Justice interactions and decisions regarding the acceptance of new cases for the upcoming 2016/17 term.

**Instructor:** Eric Waples has taught courses on the Supreme Court for 40 years. While history department chair at the Potomac School in McLean, Va., he met with various Supreme Court Justices and sat in on numerous cases.

**Time:** 10 a.m.–3 p.m. (Lunch is included)
**Dates:** Monday, June 27 (1 day) *(registration required by June 22)*
**Class Size:** 35 participants
**Cost:** $95

Pat set out on a mission to protect these animals. In doing so, he became the youngest state and federally licensed person in the country – as well as the first person to build a sanctuary dedicated to saving large carnivores. Pat’s vision has led, 36 years later, to the oldest, largest nonprofit sanctuary in the western hemisphere dedicated exclusively to rescuing exotic and endangered large carnivores.
