Overview
Advance your career with a bachelor’s degree in Agricultural Business. Offered through the College of Agricultural Sciences, this program gives you the knowledge and training needed to manage the production and marketing of agricultural products.

This agribusiness degree focuses on applying economic theory to address the agricultural issues that businesses face daily and forecast the likely outcomes of market and government interactions in our uncertain world.

• Gain knowledge, skills, and tools that can be immediately applied to your agricultural business.

• Earn your degree while keeping your job, staying in your hometown, and managing your family responsibilities.

• Participate in one of the only online agriculture degree programs dedicated to agricultural business, guided by expert faculty who can help you design a program of study tailored to meet your needs.

Instead of just giving you answers to today’s economic issues and problems, we want to help you master the tools needed to solve the new questions and problems that you’ll encounter in the future. Questions that haven’t even been asked yet.

Minimum Admission Requirements

- Previous college credit must be transferred into the program, and minimum credits required can vary depending on previous coursework completed. Although this program works particularly well for students who have completed an associate’s degree with an emphasis in agriculture, it is not required for admittance into this program.

- 2.0 cumulative GPA (2.5 cumulative GPA preferred) from all coursework previously completed

- Satisfy admission requirement in mathematics

- High school graduation or equivalent

Completion Requirements

- 120 credit hours

- 42 upper-division credits (300 to 400-level), at least 30 must be earned at Colorado State University

- The number of courses needed for completion depends on the number of transfer credits awarded and fulfillment of the All University Core Curriculum and degree coursework requirements.
