Overview
Add your name to our legacy of graduates who have become effective managers for some of the nation’s largest and most prominent natural resource management organizations, including the USDA Forest Service, Bureau of Land Management, National Park Service, and other state and federal agencies.

Our Master of Natural Resource Stewardship was designed for professionals who are seeking the necessary skills and knowledge to advance in the field of natural resources. The program provides a broad natural resources education with an opportunity to specialize in one of the following areas:

- Ecological Restoration
- Rangeland Ecosystems
- Sustainable Military Lands Management

You will finish this program as a well-rounded leader, equipped with an understanding of the interconnectedness of natural resource management systems and how that lends itself to solving real-world problems from a holistic viewpoint. The curriculum is immediately applicable to current issues within the industry, with natural resource management courses that cover topics such as:

- Natural environmental processes and how they interact with human systems
- Degraded landscape restoration principles
- Natural resource management systems and how various subsystems affect one another
- A thorough understanding of the National Environmental Policy Act (NEPA) and how to ensure compliance

Delivery
Online

Credits
30 credits

Tuition
$665 per credit; financial aid is available

Time Frame
May vary based on intensity of study and previous coursework

Degree Awarded
Master of Natural Resource Stewardship (MNRS)

Offered By
Department of Forest and Rangeland Stewardship

Minimum Admission Requirements

• A bachelor’s degree from a regionally accredited institution

• A 3.0 GPA on all undergraduate coursework. Exceptions are made on a case-by-case basis.

• No specific prior coursework is required. Coursework in biology, chemistry, and statistics is recommended. Applications are reviewed holistically.

• Some natural resource experience (no definitive amount) is required. All types of experiences (volunteer, paid, etc.) are considered.

Completion Requirements

• A minimum of 30 credits, including 14 credits of required core coursework, 9-10 credits in the area of focus, and 6-7 credits of electives.

• Electives can be chosen from either of the specialization areas, or from other courses related to the degree and as approved by an academic advisor.

Curriculum

Required Courses (14 credits)

• NR 565 – Principles of Natural Resource Ecology (3 cr.)
• NR 566 – Natural Resources Inventory and Data Analysis (3 cr.)
• NR 567 – Analysis of Environmental Impact (3 cr.)
• NR 568 – Economics of Forests, Restoration and Fire Management (3 cr.)
• NR 693 – Natural Resources Stewardship Seminar (2 cr.)

Specializations (9-10 credits)

Customize your M.N.R.S. by choosing an area of specialization from two options: Rangeland Ecosystems or Sustainable Military Land Management.

Ecological Restoration (Choose minimum of 10 credits to specialize in this area):

• NR 577 Wetland Ecology and Restoration (3 cr.)
• NR 678 Advanced Ecological Restoration (4 cr.)
• NR 552 Ecology of Military Lands (3 cr.)

Rangeland Ecosystems (Choose minimum of 9 credits to specialize in this area):

• RS 452 Rangeland Herbivore Ecology and Management (3 cr.)
• RS 500 – Advanced Rangeland Management (3 cr.)
• RS 630 Ecology of Grasslands and Shrublands (3 cr.)

Sustainable Military Land Management (Choose a minimum of 9 credits to specialize in this area):

• NR 550 Sustainable Military Lands Management (3 cr.)
• NR 551 Cultural Resource Management on Military Lands (3 cr.)
• NR 552 Ecology of Military Lands (3 cr.)
• NR 553 DoD Sustainable Building and Infrastructure (3 cr.)
• RS 630 Ecology of Grasslands and Shrublands (3 cr.)

Electives (complete a minimum of 6-7 credits)

To further diversify your curriculum, choose 6-7 elective credits. These courses can be from either of the specialization areas or from other credit courses that pertain to your professional and education goals. Electives must be above the 300 level and be approved by an academic advisor.
