

Project Management

Professional Certificate (Noncredit)

Develop your practical skills and knowledge to succeed in today's workplace

Overview

Learn the critical tools and techniques to work in a dynamic project management environment and run projects on time and under budget with standard, worldwide-recognized processes. This 18-week program uses a comprehensive, integrated, seven-module curriculum, based on the Project Management Body of Knowledge (PMBOK® Guide). You'll learn from instructors working in the industry as project managers who bring valuable real-world knowledge and instruction into the classroom.

You do not have to put your career on hold while you earn your Project Management Certificate. This evening program, available in Denver and Loveland, gives you step-by-step skills that can be used immediately to better manage your work.

**"As a beginning project manager and a detail-oriented person, the Project Management Certificate program helped me see the big picture. That's been an asset in my job – facilitating large construction projects like the new NFL football stadium."
– MOLLY URBINA, DIRECTOR –
DEVELOPMENT SERVICES, CRL ASSOCIATES, INC.**

Designed For

- Team leaders; project or program managers; design, project, quality or construction engineers; ISO project coordinators; senior executives or directors; others involved directly or indirectly with project management.
