

Submitting a Kaltura Video in an Assignment

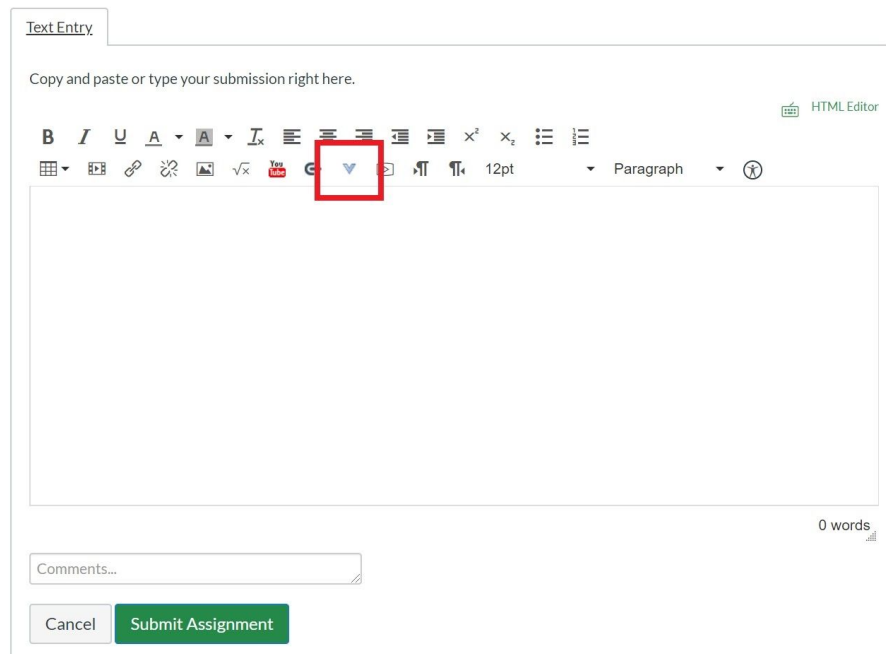

Instructors can easily create active learning assignments in Canvas which include student video submissions. Students will be able to choose a video or videos from their My Media or record videos and embed them directly in Canvas.

In the Assignment, click on the “Submit Assignment” button.

The screenshot shows the top of a Canvas assignment submission page. The title "Assignment 1" is on the left. On the right, a green "Submit Assignment" button is highlighted with a red rectangle. Below the title, there is a status bar showing "Due No Due Date", "Points 0", and "Submitting a text entry box". The main content area is empty, displaying "No Content". At the bottom, there are "Previous" and "Next" navigation buttons.

In the rich text editor, click on the “More External Tools” icon.

The screenshot shows the rich text editor interface. The title "Text Entry" is at the top left. Below it, the instruction "Copy and paste or type your submission right here." is displayed. The editor has a toolbar with various icons. A red rectangle highlights the "More External Tools" icon, which is a downward-pointing triangle. The editor is currently empty. At the bottom right, it shows "0 words". Below the editor, there is a "Comments..." text box and two buttons: "Cancel" and "Submit Assignment".

Select "Embed Kaltura Media" from the dropdown menu.

Copy and paste or type your submission right here.
