

# Creative Organizational Innovation

This online digital badge program provides a series of innovation training courses that teach you how to envision, execute, and promote a more creative organizational ecology. Start building your skill set as you learn how to:

- Be more imaginative, strategic, and purposeful in your own thinking.
- Collaborate and develop ideas that create pathways toward progress.
- Use modern tools and processes to create innovative products and services.
- Cultivate and promote leadership styles that foster innovation.
- Build a thriving organizational culture driven by creative approaches to solving problems.

The organizational innovation training in this badge program provides thought-provoking concepts, inventive thinking models, and practical tools to help you, and others in your organization, strive to implement new ideas and projects. Learn about organizational readiness, creative trends, and progressive strategies for shaping the future.

## Study at your own pace and earn digital badges

Courses in this program are self-paced. Study on your own schedule, and customize your learning experience to match your individual goals. Take all three courses to earn your Mastery Badge, or take only the individual courses you're most interested in.
