

# Environmental and Natural Resource Economics (B.S.)

This online undergraduate degree program will help you develop the analytical tools to assess, allocate, and manage natural resources and create policies to preserve them. Start building the knowledge to balance economic objectives with sustainable, environmentally conscious business strategies.

## Learn to develop plans and policies that make an impact

Comprehensive economic analysis provides a strong basis to guide policies and business operations that directly and indirectly affect our environment. At its core, economic theory provides an excellent framework for understanding both environmental and natural resource issues, predicting the potential effects of governmental policies and regulations, and developing innovative solutions to pressing economic and environmental problems.

Unlike other programs that focus primarily on natural resource management and only touch on economics, this program focuses on evaluating the past, current, and future economic impacts of various policies at a local, regional, and global scale. After successfully completing this program of study, you will have a strong foundation in:

- macroeconomics,
- microeconomics,
- finance, econometrics,
- natural resource policy,
- and agricultural policy.

To broaden your knowledge base and technical training, you will simultaneously complete a second major in Natural Resource Management or another specialized major offered through the Warner College of Natural Resources.

## Study in a flexible, online format

This online program allows you to earn your bachelor's degree from a respected, regionally accredited public research university in Colorado without leaving your hometown. Balance your academic studies with your career, family, and personal obligations.

Although this program is entirely online, you will still have many opportunities to interact closely with both your instructors and peers. You will also have access to many of the same resources and services as CSU's resident students.

## Delivery

Online

## Credits

120 credits

## Tuition

\$476 per credit

- Includes [Student Services](#)
- [Fees](#) assessed separately
- [Financial aid](#) is available; eligibility determined on an individual basis

## Time frame

Varies based on intensity of study and previous coursework

# How to Apply

Bachelor of Science (B.S.) in Environmental and Natural Resource Economics

COLORADO STATE UNIVERSITY  
ONLINE

## Application Deadlines

Fall Semester: **August 1**

Spring Semester: **January 1**

Summer Semester: **May 1**

### 1 Review Admission Requirements

- Previous college credit can be transferred into the online human development and family studies bachelor's degree, and minimum credits required can vary depending on previous coursework completed.
- 2.5 cumulative GPA from all coursework previously completed
- Satisfy [admission requirement in mathematics](#)
- High school graduation or equivalent

Students are held to the same [University admission standard](#) as applicants for on-campus degree programs.

### 2 Complete Online Application

Complete Colorado State University's [online undergraduate application](#) and pay the \$50 nonrefundable application processing fee (payable online).

- Select "Environmental and Natural Resource Economics—online degree program" when choosing major.

Online applications must be submitted before 5 p.m. (Mountain Time) on the deadline date. If you miss the application deadline, you may still register for courses to begin your program of study as a non-degree student. Students seeking Federal financial aid must be admitted prior to enrolling.

### 3 Apply for Financial Aid

If you wish to apply for Federal financial aid, please complete the [Free Application for Federal Student Aid](#). Additional [financial aid information](#) is also available.

## Check Your Application Status

View your [application status](#) at any time to ensure your application checklist is complete or to check on updates.

Admissions decisions are made on a rolling basis and may take up to six weeks during high volume application periods.

## International Students

See [website](#) for test score and transcript requirements.
