

Integrated Resource Management

Master of Agriculture (M.Agr.) in Agricultural Sciences –
Integrated Resource Management Specialization

COLORADO STATE UNIVERSITY
ONLINE

Overview

Our online Master of Agriculture in Integrated Resource Management is a multi-disciplined program, blending animal science, business, range science, ecology, wildlife, policy, and human resources. This allows students to understand how all agricultural resource systems work together in a comprehensive way and how to apply them in an agricultural management setting.

Some unique attributes of this degree are:

- Students interact and network with others across the country as well as some international locations.
- Advisors help students design plans of study that emphasize immediate career applicability.
- Online education allows working professionals to obtain a degree without putting their careers on hold.

The master's in agriculture reflects Colorado State University's land-grant heritage, research expertise, and leadership in agricultural and sustainability education. The integrated resource management program is offered by the Western Center for Integrated Resource Management (WCIRM) and is supported by the College of Agricultural Sciences, Warner College of Natural Resources, and College of Veterinary Medicine and Biomedical Sciences, with some courses endorsed by the School of Global Environmental Sustainability (SoGES).

Curriculum

The integrated resource management specialization in this online agriculture master's degree allows you to take the ten required courses in the order that best suits your educational and professional needs. All online courses combine the same rigorous training as campus courses with directed hands-on, problem-solving experiences that apply to real-life land management scenarios.

This program teaches you to be a capable professional in agriculture, government, and natural resources careers. For example, alumni can:

- Manage rangeland and animal production for both long-term profitability and sustainability.
- Apply an integrated approach to successfully manage the needs and interests of multiple stakeholders.

Delivery

Online

Credits

Plan B – 30 credits

Tuition

\$624 per credit

- Includes [Student Services](#)
- [Fees](#) assessed separately
