

Music Therapy

Master of Music (M.M.) – Music Therapy Specialization

COLORADO STATE UNIVERSITY
ONLINE

Overview

Advance your career as a music therapist with CSU's nationally recognized online music therapy degree. Through your course of study, you will learn how to use music as a form of therapy to address the physical, psychological, cognitive, and social needs of individuals.

- Expand your background in neurological sciences, music, and research.
- Learn to work with people who have neurological disorders such as stroke, traumatic brain injury, Alzheimer's disease, Parkinson's disease, Huntington's disease, autism, developmental disorders, and multiple sclerosis.
- Earn your degree at your own pace and still maintain full-time employment. The program requires only one on-campus session.

A neurological approach to music therapy

Develop your skills as a music therapist by focusing on neurological techniques that promote changes in cognitive, sensorimotor, speech and language, and psychosocial functioning. Develop your use of music therapy techniques to:

- Rehabilitate individuals with neurologic disease and disorders.
- Maintain functioning with older adults.
- Improve the communication, academic performance, and social skills of children with disabilities.
- Promote cognition and enhance memory.
- Facilitate motor development in children with disabilities.
- Improve treatment outcomes.

CSU's faculty incorporate their innovative research and clinical work into online courses, ensuring your experience is practical and up-to-date. You will learn the leading industry practices from faculty specializing in areas that include:

- Neuroscience research applied to music therapy
- The use of technology in clinical settings
- Music therapy percussion pedagogy
- Cognitive and communication skills in children with autism spectrum disorders

Curriculum

You will take a wide variety of courses in music theory, music history, and composition. In addition, the program includes courses in psychology, physiology, and a clinical core emphasizing the research aspects of music therapy.

Delivery

Online and on campus

Credits

Plan A – 30 credits

Plan B – 32 credits

Tuition

\$605 per credit

- Includes [Student Services](#)
- [Fees](#) assessed separately
