Overview

Discover critical tools and techniques to work in a dynamic project management environment and learn to run projects on time and under budget with standard, worldwide-recognized processes. Instructors working in the industry as project managers bring valuable real-world knowledge to the classroom using a comprehensive, integrated five-module curriculum based on the Project Management Body of Knowledge (PMBOK® Guide*).

Project management skills are in high demand, and our project management online certificate program gives you immediately applicable skills to effectively execute projects and identify and manage project risk in virtually any field, including:

- Architecture
- Biotechnology
- Construction
- Engineering
- Finance
- Information Technology
- Manufacturing
- Government
- Pharmaceuticals
- Real estate development
- Telecommunications

Curriculum

The five-module program follows the guidelines from the Project Management Institute (PMI), which also awards designations for Project Management Professionals (PMP®).

- **Module 1** – Introduction, Initiating, Process Groups, and WBS
- **Module 2** – Planning: Plan Schedule Management, and Plan Cost Management
- **Module 3** – Executing – Direct and Manage Project Work, Project Knowledge
- **Module 4** – Monitor and Control Project Work, Change Control, Risks
- **Module 5** – Close Project or Phase, and Next Steps

Program Project

Throughout the program, you will complete a project that integrates and applies lessons from each unit. By the time you finish, your resulting work is a portfolio piece that demonstrates your competency as a Project Manager.

Delivery

Online

Tuition

$3,395
