

Sustainable Military Lands Management

Graduate Certificate

COLORADO STATE UNIVERSITY
ONLINE

Overview

The Graduate Certificate in Sustainable Military Lands Management (SMLM) was designed for both civilian and military land management professionals.

Why study military land resource management?

The demand for highly skilled and educated environmental professionals to manage military lands is rapidly increasing. Military lands are critical assets for training and testing exercises, but they also contain diverse and often rare natural and cultural resources that must be protected. Managing and sustaining these lands requires knowledge of ecological concepts and new technical and communication skills in a wide range of natural and cultural resource areas.

In this program you will:

- Gain an overview of military lands in the United States in historical, geographical, and environmental contexts.
- Learn general practices and theory of land management and cultural anthropology.
- Study the ecological principles of military training and testing, and learn about the disturbances caused by these activities.
- Explore cultural resource laws, policies, management, and preservation as they apply to military lands.
- Prepare to lead stewardship-related matters on military lands.

Curriculum

Courses are offered on a regular semester basis using a 16-week format, with one lesson offered each week. It is recommended that you begin the program by completing NR 550 first.

Required course:

- **NR 550** – Sustainable Military Lands Management (3 cr.)

Select 2 courses from the following:

- **NR 551** – Cultural Resource Management on Military Lands (3 cr.)
- **NR 552** – Ecology of Military Lands (3 cr.)
- **NR 553** – DoD Sustainable Building and Infrastructure (3 cr.)

Delivery

Online

Credits

9 credits

Tuition

\$685 per credit

- Includes [Student Services](#)
